

Barrique 001 Planter

Design unPizzo

Technical Information

BARRIQUE is the original outdoor planter cover designed by UNPIZZO, a studio specialising in the creation of weaves for indoor and outdoor furniture. In the different formats of the modern iroko wood planters, the belts generate, as weave, a pattern complemented by the fine cordage forming rhombuses on the entire surface of the cylinder. BARRIQUE planters are available in three sizes, with narrow or wide slats and complementing belts and cords, in continuity with RODA's formal language. The fabric elements come in a wide range of colour combinations: solid colour, tone on tone or in two contrasting colours chosen from the full catalogue range.

TECHNICAL INFORMATION

DESCRIPTION
Planter for outdoor use.

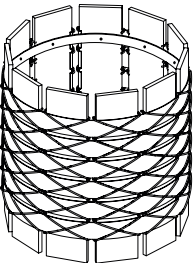

STRUCTURE
Iroko.

CORDS
Polyester or acrylic (cord Ø 3 mm).

BELTS
Polyester (belt 16 mm).

WEIGHT
Structure 5,5 kg

DIMENSION
Ø 44 x H 40 cm
Ø 17" 3/8 x H 15" 3/4
